

Don't you people have enough work to do that now you have to start a campaign again XM radio. You people should resign and save the tax payers money because you sure do nothing for us. It's all the people with the BIG MONEY/AND BIG GUNS that you listen to. Tell them to go to hell and go save the dolphins or the whales or other endangered species around the world. Enough is enough, leave people trying to do business legally alone and go after the big money corporations that are swindling billions of dollars from us and you don't back them do you???? Keep your ill gotten goods to yourselves and leave XM radio alone.....Mr. Charles Pickering and Gene Green resign and go home and twiddle your thumbs for the rest of your lives, this bill is absolutely worthless and go to Ms and Tx and stay there.
